RE: Staff Report

T2035 Financially Constrained Investment Program Approval Process

Thanks to those of you who attended the last Joint Advisors Workshop on June 26. Therese McMillan provided an in-depth presentation of the financially constrained investment recommendations, and workshop attendees were able to convey their funding preferences via electronic voting. The results of the voting are currently being tabulated and will be sent to meeting attendees when they are completed. Each advisory committee will then discuss their funding preferences; these preferences will be communicated to the Commission at the July 11 Planning Committee meeting. The Planning Committee will be approving the financially constrained investment program of projects and HOT network implementation objectives at that time.
